

Clark Forklift Parts

Clark Forklift Parts - Presently, there are over 350,000 Clark forklifts performing worldwide, and more than 250,000 in service in North America alone. With five main lines across the globe, Clark is proud to be one of the most expansive organizations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand powered lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 distinctive brands of forklifts, with parts covering more than 120,000 particular items for all of its automated equipment. Your regional Clark Seller is your complete source for availability of all your parts requirements supplied by Clark Totalift.

Clark features a exceptional Parts Supply team. The items warehouses are conveniently situated in Changwon, South Korea and Louisville, Kentucky to ensure exceptional service to both their customers and their sellers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing manufacturers. Driven to provide the highest level of value and service to our clients, Clark remains on the cutting edge when it comes to enhancing productivity and benefiting performance.

Worldwide, Clark has one of the most amazing dealer support networks. With over 550 locations worldwide, supplier representation in over 80 countries and 230 locations in North America, their high level of dedication to their clients predominates the material handling market.

Clark proudly remains an innovative leader of the material handling industry, pioneering safety features such as the operator restraint system. This exceptional commitment to safety is at this time a customary feature on every forklift.

Clark's continual effort to have the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift maker across the globe to be certified with the globally approved quality standard ISO 9001 for all of their production facilities. Additionally, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be ready for any number of environmental restrictions, thus placing them in a prevailing industry position.

Clark has chosen the system of "Lean Production" at all of its assembly plants for the reason that this technique is extremely economical and allows for minimal use of resources. Developed to guarantee maximum efficiency, this system is designed to find and acknowledge the most effective methods for production plant management. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

By working in concert, Clark's product suppliers and engineers communicate towards improving product efficiency while minimizing expenses. The contemporary value engineering program combines innovative product development and offers superior client support and service within the industry.
